

WHITE OFFERS NO TESTIMONY AT HEARING

Bound Over to Superior Court for Killing Of A. M. Cameron.

(From Wednesday's Daily.)
The preliminary examination of Leonard White for the killing of A. M. Cameron was held at Congress Junction on Thursday afternoon before Judge Luke, and the accused was held to the Superior Court for trial without bail. No evidence whatever was introduced by the defendant, and White was returned to the county jail. County Attorney O'Sullivan stated yesterday that an information charging murder will be formally lodged against White in the Superior Court on Monday of next week, probably; when the case will be set for trial later.

HILLSIDE ROUTE IS NOW OPEN TO TRAVEL

(From Saturday's Daily.)
Chairman Stephens of the Board of Supervisors, Harry Heap, member; Road Superintendent Clark, and C. H. Hinderer, forest supervisor, made the round trip Thursday from this city to Congress Junction over the new grade of the North and South highway, traveling a distance of 130 miles by auto.

The road is now open for traffic, and all of the party report an excellent route for the use of the public. The line was logged for the benefit of southern tourists, as well as the road from Congress Junction to Prescott marked with metallic sign boards to guide travelers to this city during the Frontier Day celebration. Less than ten hours were required to negotiate the trip.

HOT FIGHT OVER SMOKING ON STREET CARS

NEW YORK, June 26.—Whether or not mere men shall be deprived of his precious privilege of smoking on the four rear seats of open street cars is the question around which a merry war is being waged. The anti smokers, led by a Dr. Pease, whose antipathy to the weed is so keen that he is reported to have left a banquet because a girl recited a poem by James Whitcomb Riley in which mention is made of smoke wreaths, demand that all smoking in or about any railroad, street car line, or ferry house under the jurisdiction of the Public Service Commission be prohibited by law. At the first hearing held before the Commissioner most of Dr. Pease's supporters were women, but the opposition came entirely from the sex which is permitted to smoke in public. They used no arguments to back them up in their opposition but ridicule, and one of them had the hardihood to try to change the tenor of the proceedings by asking that the order be amended so as to require the railroad companies to provide more smoking accommodations than they do. Humor was added to the situation by one man who waved a bunch of coupons, such as are given away with cigarettes and cigars and protested that he was not allowed to smoke at home or in his office and that the open cars were the only available place left, since he never walked. "I represent the great coupon collectors of New York," he said. "My dearest wish is to own a yacht. For years I have been saving coupons to get one. But if I can't smoke at home or in the subway or at the office, and if you now prevent me smoking on the street cars, how can I ever get that yacht?" Further hearings will probably be held before the matter is ended.

RANGE CATTLE SOLD.

(From Friday's Daily.)
John H. Simpson, of Camp Wood, was a visitor to the city yesterday and reported he had closed the sale of several carloads of cattle to A. P. Fitzsimmons, of Nebraska. The buyer is a brother of T. E. Fitzsimmons, the brick manufacturer who formerly resided in this city.

COMMITMENT OF THOMAS WAS ILLEGAL

Piano Player Secures His Freedom Through Habeas Corpus.

(From Saturday's Daily.)
Attorney Hammond won his celebrated habeas corpus case yesterday in the Superior Court, and his client, Fred Thomas, walked out of the room breathing the air of freedom once more. This proceeding had its inception in the City Police Court, when Thomas was sentenced to serve fifty days straight for assault on a woman in the redlight district, where he was employed as a piano player. The acting city recorder imposed the penalty in the usual manner, and on the grounds of a technicality prevailing in the record of the case, habeas corpus was resorted to, and successfully so at the finish. In handing down his decision releasing Thomas from custody, Judge Smith stated that the chief of police of Prescott, who was holding the defendant in custody, was holding him without any authority of law, the statute requiring that the chief should have a certified copy of a judgment of conviction and that no judgment had ever been entered in the lower court. In other words, whenever a person is found guilty by the city recorder the chief of police must be furnished with a certified copy of the judgment as commitment to prison, and which was not done in this particular case. In closing this case the court also expressed deep regret that he was compelled under the law to release the prisoner.

HAS BEEN BRIDE SINCE 14TH OF MONTH

(From Saturday's Daily.)
Announcements have been issued of the marriage of Mrs. C. S. McCree and Neil B. Prest, which took place at Clifton, Arizona, on June 14, and the arrival of the bride in the city a few days ago proved an agreeable surprise to her many friends. She had been a resident of the city for many years, following the profession of a trained nurse and with a pleasing personality became very much endeared to many. Mr. and Mrs. Prest will reside in the future at Metcalf, this State. They are the recipients of felicitations of many friends here and elsewhere. They will be at home in the above city after July 15.

POPULAR YOUNG VERDE COUPLE MARRIED

(From Friday's Daily.)
The marriage of Miss Opal Wine and J. M. Richards on Wednesday afternoon was a particularly interesting and noteworthy event. They were united as man and wife in the parlor of the Head hotel by Judge C. H. McLane, coming from Camp Verde for the purpose. They were accompanied by many relatives and several friends, and the scene was a very pretty one as the ceremony was being performed. The bride was elegantly gowned. She is a favorite of the Verde valley. Her frugal young husband is engaged in cattle raising in that fertile section. Both have the sincere wishes of all for a happy and prosperous future as they journey through life. Mrs. Harvey Hance, sister of the bride, and Mrs. Annie Richards, mother of the groom, attended the principals during the ceremony. Mr. and Mrs. Richards left for Camp Verde yesterday morning, where they will reside in the future.

ESTIMABLE WOMAN DEAD.

Mother of Professor Baker Passes Away at Buchanan, Michigan.

(From Thursday's Daily.)
Mrs. Harriet Baker, mother of Professor W. D. Baker, superintendent of schools of this city, passed away at Buchanan, Michigan a few days ago, a telegram being received yesterday from Prof. Baker to that effect. He was summoned home a few weeks ago, and was at her side when the summons came. The deceased was a resident of Prescott about five years ago for several months, and became endeared to many. She was aged 80 years and had been in feeble health for some time.

IF UNITED STATES WOULD BECOME MEXICANIZED

June 1.—The army has revolted under General Leonard Wood. The soldiers have not been paid since the revolution of last November, when Senator Taft was ousted from office and banished.

June 6.—The California insurrection under Colonel (now General) Roosevelt is reported to be under control. Senator Johnson was taken and shot by the Federal troops near Los Angeles.

June 10.—The Wisconsin revolt under Senator La Follette, which has smoldered since last summer, has just broken forth with renewed violence. Canada has stationed six regiments near the border.

June 15.—The army under General Wood has besieged and taken Washington. A provisional government under his leadership has been proclaimed. The late president, Senator Wilson, has been held for trial. Congress was hastily summoned and under threat of armed force the members were compelled to recognize the new regime.

June 16.—Senator Wilson, Senator Marshall and other deposed officials at Washington were shot today while "escaping." The government officially expresses its regret and refuses to give up the bodies to the relatives of the deceased.

June 17.—The Wilsonistas of New Jersey have been making trouble. Five regiments have been sent to quell the disturbance.

June 20.—Canada still refuses to recognize the de facto government of President Leonard Wood, although Costa Rica and Haiti have done so. Hostile demonstrations were made before the Canadian embassy.

June 23.—The State of South Dakota has been leased to a firm of Canadian capitalists. Federal authority has virtually ceased in the upper Mississippi region, and the La Folletteists have declared Wisconsin and North Dakota as independent States. It is thought that they may join Canada.

June 30.—General Roosevelt has taken the city of Denver.

July 2.—The State of Kansas has suffered severe loss from the raids and counter raids of the regular and insurgent troops.

July 3.—Ex-President Taft has landed from Cuba. He denies any intention of trying to regain the presidency. The city of Omaha has been retaken from the Wilsonistas, but Colonel Bryan was not apprehended.

July 4.—Independence day was celebrated with rejoicing in the capital. The treasury is empty and the State of Arkansas is mortgaged to a firm of foreign capitalists to pay for the expense of government. There is much fear of Canadian intervention. The relative position of the two countries may be better understood when it is considered that Canada has a population of 540,000, 000, and that under the Borden doctrine Canada represents the claims of the world upon the American government and insures the safety of foreigners within her borders. The day passed quietly except for anti-Canadian riots in New York.

SELLS HALF HIS CATTLE HOLDINGS FOR \$40,000

(From Friday's Daily.)

Another heavy cattle and range transaction was closed in this city yesterday, when A. B. Kellogg purchased from C. H. Hooker a one-half interest in the Horseshoe holdings of the latter, for the sum of \$40,000 in cash.

This deal does not include the interests of Mr. Hooker on Ash Creek, and is confined solely to the above mentioned section. Mr. Kellogg recently disposed of his range interests in the same locality, while Mr. Hooker a few months ago purchased from his former associate, Geo. C. Ruffner, the latter's interest in the same property that he disposed of yesterday at a figure greatly in excess of the sum paid. The Horseshoe controls a large area of the finest grazing domain in the southeastern part of the county, is well watered, and during the prevailing drouth, cattle have passed through a severe season in fine condition.

Another deal closed in this city yesterday of considerable importance was the buying of the cattle in the Rafter Eleven iron owned by A. G. Dickson, which were acquired by R. C. Ralston. The animals range along Ash Creek and the Cienega. The consideration in this deal was not given publicly, but runs to over \$10,000, it is reported.

NEBRASKA TORNADO.

LINCOLN, Neb., June 26.—A tornado, hail and rain storm swept Central Nebraska last night, damaging crops and sweeping through the town of Kenesaw. No lives were lost.

MAY PUT LIMIT ON HEIGHT OF BUILDINGS

NEW YORK, June 27.—That New York's skyscrapers may have reached their limit in spite of the fact that all sorts of wild guesses are made as to their height twenty years from now, is indicated by the organized move being made by merchants whose places of business front on Fifth avenue.

Practically all of the large cities of the world have already taken steps to restrict the height of buildings. New York is the last, almost, to make regulations to this end. Much data on the subject has been gathered by the Fifth Avenue Association, which will be placed before the newly created commission to inquire into the practicability of limiting the height of buildings in this city. Their report is to be made within six months. The Fifth Avenue Association has advocated openly the limiting of buildings on that thoroughfare to not more than 125 feet. The question which it raises now is whether a law making restrictions to cover Fifth avenue alone will be constitutional. The opinion seems to be that a general law covering the whole city will have to be framed. Many foreign cities limit the height of buildings considerably less than 100 feet, as compared to New York's 600 foot and 700 foot monsters.

The highest appellate court of Massachusetts, the Court of Appeals of Maryland and the United States Supreme Court have all held that laws limiting the height of buildings are directly based upon a proper exercise of the so-called police power of the State. Of course it should be understood that in any given case the limitation of height must be a reasonable one or the law would certainly not be upheld. But from present appearances the hundred story building so freely predicted only a short time ago may never arrive in New York, and the present skyscrapers tower in lonely grandeur over restricted buildings of the future.

CANADIAN BOXER AND M'MAHN MATCHED

Event to Take Place On The Evening of The 5th of July.

(From Saturday's Daily.)
On the night of the 5th of July the question whether a man can "come back" will be answered when Jack McMahn, who was worsted in his bout with Frankie Gage at Phoenix about a month ago, will try fistic conclusions with Kid Denister of Bow Island, Alberta, Canada.

The settlement of the above question will take place at the rooms of the Prescott Athletic Club on West Gurley street, where many a fight has been lost and won and where some good scraps have been witnessed in the last two years, and some seen that were not so good, while others were nothing more or less than putrid. However, those who know the redoubtable "Fighting Fireman"—and who does not—realize that on this as on every other occasion when he donned the mitts, he will give the best in him and that assurance means that the fans will surely get a run for their money.

Denister is a likely looking lad whose fighting weight is 133 pounds and in this respect he has the call over McMahn, who is a 122-pounder. The Mile Higher on the other hand has had more ring experience, which in itself is considered an advantage.

The money for appearance was posted by both men with the Journal-Miner last evening and they will go into training immediately for the event. There will be several good preliminaries.

CIVIL SERVICE EXAMINATION

Clerk Carrier.

An examination for clerk and carrier will be held at the postoffice in this city on July 12, 1913. For application blanks and for full information relative to the examination, qualifications, duties, salaries, vacations, promotions, etc., address immediately.

ALBERT M. WELLWOOD, Secretary, Board of Civil Service Examiners, Postoffice, Prescott, Arizona.

YOU LIVE LONGER IF MARRIED DOCTOR SAYS

Statistics Are Given To Prove the Truth Of His Assertion.

CHICAGO, June 27.—Married persons live longer than those who are single, according to statistics gathered by Dr. C. St. Clair Drake of the city health department here, and were made public today. He figured that the death rate of Chicago bachelors is 29½ per cent higher than that of married men. The mortality rate of unmarried women is 40 per cent higher than that of married women he says.

PREFERS DEATH TO FACING OF CHARGES

CRIPPLE CREEK, June 27.—James L. Bacon, a former State representative, who is in jail here, charged with murdering his wife and step-daughter by dynamiting the family home, was found unconscious in his cell today with deep wounds to commit hari-kari with a pocket knife which he borrowed yesterday. Physicians say there is little hope for his recovery. Since incarcerated Bacon has inaugurated several hunger strikes.

FAST AMOUNT OF ROAD WORK IS BEING DONE

(From Wednesday's Daily.)
County Road Superintendent D. M. Clark gave an interesting review yesterday of road building and repairing throughout the county, which covers practically every avenue of travel or in need of attention. He states that a new high line roadway is being built from Clarksdale to Camp Verde, which follows the west side of the Verde valley, and which will afford a better route than that in existence, as well as it will be more direct than the one now in use.

The old road from Ash Creek via Copper canyon to Camp Verde is also to be repaired and placed in better condition than ever before known, a crew now being engaged in the work. To prepare for the coming travel to Prescott from the northern counties, a force of men will be taken today to fix the road at several places between this city and Ash Fork.

Good progress is being made in building the new north and south highway from Kirkland valley south to Congress Junction, via Thompson valley, Hillside and Cottonwood on Date creek, and by July 4 the grade will be passable to all classes of vehicles. A one-mile rough stretch remains, but with the summer rains coming, a veritable boulevard will be created by the packing of the loose soil.

It will be learned with satisfaction by mining men to the south of Prescott, and by those who frequent the state highway, that the county will take charge of that line in the future and protect its fine road bed. The rocks are to be removed and the line drained so that the anticipated storms of the near future will not seriously affect it. About thirty additional culverts are also to be installed. Mr. Clark also states that he begins opening up the terminus of this highway with a connecting point near the Venezia mining camp at once, in which there remains about one mile of work to be performed.

ZONIA TO FRONT AS A COPPER CENTER

(From Wednesday's Daily.)

Zonia, as a coming copper producing center, is attracting very much attention at the present time, was the statement made Monday by L. J. Haselfield, the merchant of Kirkland. The McMahon group has entered the shipping class again, and several carloads are to go to the Douglas smelters, the first freight teams loading at the railroad station.

The Meyers mines are also preparing to ship to the same market, and both properties are reported to be showing better than at any time in their history, and at the greatest depth also. Another shipper of the near future will be the F. J. Stein Rough Rider mine. A new hoist is being installed to expedite deep shaft sinking, and with the tonnage exposed the grade of the yield is attracting very much interest.

Mr. Haselfield states that the old field appears to be passing through a decidedly attractive era, and that it is destined for a prosperous future is believed by the activity noticeable, and the heavy tonnage taken from recent development.

CATTLE MARKET HAD TENDENCY TO DECLINE

Break in Prices However Did Not Amount To Much.

KANSAS CITY STOCK YARDS, June 23.—Dry weather talk was general last week, and resulted in a break of 15 to 30 cents on stock cattle and feeders. The withdrawal of country buyers gave killers a chance to insist on concessions, and thus a part of the bloom recently acquired by killing cattle was dissipated. It was done without the actual appearance of any dry weather cattle worthy of mention. Scattered rains have fallen in the last few days, and there is less drouth talk today.

The run of 11,000 cattle here today contains few that have been forced in prematurely, on account of the dry weather. The market ruled steady to 19 lower on killing cattle today, and fully steady on stock grades, at the recent decline. Heavy steers sold best today, contrary to custom, natives reaching \$8.65 and \$8.75, not quite the full limit of the market, and mixed yearlings up to \$8.75 also, bulk of the natives at \$7.85 and upwards, fed westerns, \$7.50 to \$8.50; quarantine fed steers, \$7.35 to \$8.00; grass steers, \$6.00 to \$7.00. Some low grade Panhandle killing steers sold down to \$5.85 in the last week. Good stock steers may be had at \$7.00 to \$7.50. Cows bring \$5.25 to \$7.25, heifers, \$6.75 to \$8.50.

Hogs sold strong to 5 higher today, receipts 6600. All kinds sell close together, bulk at \$8.60 to \$8.70, top \$8.72½.

Reports indicate a good many hogs in the country, and dealers regard the present prices as not to be counted on as a permanent institution.

Sheep went to pieces last week, due to unexpected heavy supplies of natives. Receipts today, 8700; market stronger, with some Spring lambs at \$7.50; Arizona lambs, \$7.00; Texas muttons today, \$4.80; others at \$4; some good black face breeding ewes to the country today at \$3.75.

WHAT THE PEOPLE OF HUMBOLDT ARE DOING

HUMBOLDT, June 25.—Mr. and Mrs. D. Henderson entertained about twenty of their friends at cards last Sunday evening.

The Misses Annie and Clare McEachran left Monday evening for Prescott, and after a couple of days' visit there will leave for their home at Marengo, Iowa. They will stop off for a few days sightseeing at the Grand Canyon. Miss Clare returns in September to teach again in our schools.

Miss Mamie Cain returned to her home in Prescott on Monday evening after a week's visit with friends here.

Cards have been received by friends here announcing the marriage of Mrs. Lillian E. Thomas and Mr. Chas. L. Riley, at Long Beach, Cal., on Saturday, June 14th. They are at home to their friends at the Driscoll Apartments, San Francisco, Cal.

Mr. and Mrs. Ed Barney leave Thursday for Oak creek, where they will spend a month, hunting and fishing.

Mrs. Chas. P. Wingfield and son, Paul, are spending a few days in Prescott this week.

Mr. and Mrs. Wm. Stephens, of Prescott, stopped off here last Monday on their return from Camp Verde, and visited the latter's brother, C. P. Wingfield.

Prescott and Humboldt ball teams are to meet on the home grounds next Sunday at 2:30 p. m. Although our team was defeated at Jerome last Sunday, it did not discourage them in the least, and they are now ready to show the people of Humboldt that all they need in order to be winners is a good crowd of enthusiastic rooters at next Sunday's game.

Our home talent company will give "Charley's Aunt" at Jerome next Saturday evening. Here's hoping they may play to as large and pleased an audience as greeted them here last week.

Do not forget the dance at Vest's hall next Tuesday evening, given by the baseball boys.

Friends of Mrs. Larremore will be pleased to learn that she is much improved in health.

RAILROAD BLAMED.

VALLEJO, Cal., June 26.—A verdict was brought in by a coroner's jury late tonight charging that laxity in operating its system of railroad by the company was the principal reason for the wreck last Wednesday on the San Francisco-Napa Valley-Calistoga railroad, which cost thirteen lives and injured fifty-three.
